SUMMARY

High-Honors Cybersecurity & CIS student at the University of Houston with CompTIA A+, Network+, and Security+ certifications. Experienced in IT support, troubleshooting, and Active Directory administration through hands-on projects. Strong customer service background with bilingual communication skills. Seeking an IT Internship to support system operations and resolve technical issues demonstrating my work ethic.

EDUCATION

University of Houston Bachelor of Science in Computer Information Systems (GPA: 3.5) - Taylor Austin Broussard Legacy Scholarship Winner & CHIME Scholar - Society Of Hispanic Professional Engineers (Active Member)	Houston, TX Jan 2026 - Present
Houston City College Associate of Applied Science in Computer Systems Networking (GPA: 3.6) - Microsoft's Last Mile Education Scholarship Winner - National Cyber League Platinum Badge (Top 24%)	Houston, TX Jan 2020 - Dec 2024

WORK EXPERIENCE

USDA – Agriculture Research Service, IT Systems Division (IRMO) IT Program & Resource Management Analyst (Incoming Intern) - Integrated IT portfolio and resource management, governance, planning, policy, and assessment support for Agency - Contribute to IT Strategic Planning and Analysis and Reporting, and Business Customer and IT Stakeholder Engagement - Support IT Program and Portfolio Planning and Performance Analysis and Reporting	Houston, TX Aug 2026 – Present
Owner / Lawn Care Operator Self Employed - Independently manage a recurring client base of 10+ accounts, maintaining a 96% on-time service completion rate through disciplined scheduling and route planning - Triage and resolve 6+ customer service requests weekly — prioritizing by urgency and dependency like a support ticket queue — while maintaining 100% response follow-through - Improved route efficiency and maintained organized service documentation, reducing average job-to-job travel time by 40% and increasing daily service capacity.	Houston, TX Apr 2025 – Present

PROJECTS

Small Enterprise Network Design - Designed and implemented a multi-departmental branch network for a Houston-based retail company using Cisco routers and switches. - Configured VLAN Segmentation, inter-VLAN routing, and automated DHCP IP addressing to ensure secure and efficient communication.	GitHub
Morse Corp Inc - A Compliance Failure Case Study - Analyzed the \$4.6M MORSECORP Inc. False Claims Act settlement to identify GRC and cybersecurity compliance failures, mapping admitted deficiencies to NIST SP 800-171, FedRAMP, DoD SPRS, SSP, and vendor risk management requirements. - Evaluated the gap between MORSE's reported 104 SPRS score and independently assessed -142 score, developing recommendations for compliance monitoring, third-party risk management, remediation tracking, and executive escalation.	GitHub

Leadership & Volunteer Experience

Capital One Launchpad Program HACU Scholar - Collaborated with a cross-functional cohort to design and pitch a fintech product concept — a credit-building credit card and app leveraging non-traditional data such as utility bills — in a competitive pitch competition. - Selected for Capital One's Launchpad program in partnership with HACU and TMCF, gaining exposure to the company's business operations and culture.	McLean, VA Jul 2026 - Jul 2026
Society of Hispanic Professional Engineers SHPE Junior Volunteer & Mentor Volunteered with SHPE outreach programs supporting first-gen students and families with FAFSA, scholarships, and college readiness.	Houston, TX Mar 2026 - Present
Junior Reserve Officers' Training Corps: Cadet Volunteer (50 hours) Participated Supported veteran and staff community service events at VA hospital facilities, building leadership and teamwork skills.	Houston, TX Jan 2021 - Dec 2022
